ABOUT SOURCE INDIA 2022

Currently in India, the production of Man-made Fibre and Yarn is totaling of 6 million tons, and 28,000 million sq.m of fabrics. A self-sufficient raw material production base and centuries-old heritage of textiles - that is what India has to offer to the international buyers.

The Man-made Fibre Textile Industry is growing by leaps and bounds; it constitutes nearly 73% of the Global Textile Market and around 17% of India's total textile exports. India is the second largest producer and 6th largest exporter of Man-Made Fibre Textiles in the world, and with government initiatives like PLI scheme, Make in India initiative, etc. The time is opportune to explore the unlimited possibilities of MMFT & its blends, and expand your sourcing network in India.

Source India 2022 is the 6th edition of the International Signature Event organized by The Synthetic & Rayon Textiles Export Promotion Council (SRTEPC), under the aegis of the Ministry of Commerce & Industry and Ministry of Textiles, Govt. of India. It will be held from 20 to 22 March 2022 at the Surat International Exhibition & Convention Centre, Surat, Gujarat, India.

There is a huge demand for Synthetic Fibre Textiles and its blends due to their versatile & durable nature, and diversified uses. This demand will only be strengthened in the future due to the increased global production and demand preference for MMFT and its blends. Source India 2022 aims to provide an ideal platform to international buyers, who are interested in sourcing their requirements from India, and take advantage of its ever-expanding, vibrant and future-ready product base that covers the entire Man-made Fibre & Blended Textile Value Chain.

- Display of new products, latest innovations, international trends in fashion by around 200 new and upcoming companies, tradition textile houses and large Indian conglomerates.
- Opportunity to interact with leading clothing brands, Indian & International buying houses, and domestic manufacturers & suppliers to forge partnerships, collaborations, MOU's and technical alliances.
- Informal dinners for networking with the key stakeholders in the Indian Textile Industry.

ABOUT SURAT

Surat houses one of the oldest and most widespread textile industries in the country, in fact it is known as the Textile Hub and the Silk City of India. A major part of the city's population is associated with textile production, and here are some of its highlights:

- The biggest centre for Man-made Fibre Textiles in India
- Surat houses 400 dyeing and printing mills and 42,000 power loom units, adding up to over a hundred thousand mills and units
- Around 13,000 million sq m of Man-made Fabrics and about 90% of polyester fabrics used in India is manufactured in Surat
- Nearly 30 million meters of raw fabric and 25 million meters of processed fabric are produced in the city daily
- Surat is the largest manufacturer of cloth in India with over 800 cloth wholesalers
- Total no. of Looms in Surat are around 7.00 lakhs Looms and 485 Process Houses, employing 2 million people in textiles
- Surat has good air and road connectivity with Mumbai and Delhi.

THE INDIA ADVANTAGE IN TEXTILES

- Presence of products across the entire Textile Value Chain
- Abundant availability of basic raw materials, Cotton and Man-made Fibres
- State-of -the-art, fully integrated manufacturing facilities
- Dynamic entrepreneurs willing to bet their last rupee on their ambition
- A young and technically qualified workforce with bright and creative designers
- Textile Industry is an equal opportunity employer
- Domestic market worth USD 100 billion
- Second largest manufacturer of Man-made Fibre Textile products in the world
- Sixth largest exporter of Man-made Fibre Textile Product in the world
- Third largest producer of Denim in the world
- Proactive Government and Ministry support in creating a conducive business environment for development and growth, including financial stimulus
